CUBAX POWER

(Fipronil 7% +
Hexythiazox 2% SC)

CUBAX POWER

Mode of Action ▶

Cubax Power (Fipronil 7% + Hexythiazox 2% SC) is a suspension concentrate containing Fipronil 7% (a.i) and Hexythiazox 2% (a.i) in the formulation. It is used for the control of Mites and Thrips on Chilli.

▶ Adds more life to your crop

Cubax Power provides vitality to the plant for better & healthier crop establishment.

▶ Ensures higher yield & Holistic control over sucking pest complex

Better ROI for your crop

▶ Smart triple-mode of action

Ensures effective kill of the target pest with a triple-mode of action (Systemic, Contact as well as IGR Action)

Disrupts the central nervous system (GABAA receptors).

IGR action for ovicidal and nymphicidal effects.

Recommendation ▶

Crop (S)	Common Name of Pest (S)	Dosage / HA		Dilution in water (Litre)
		a.i. (g)	Formulation (ml)	
Chilli	Mites & Thrips	0+20	1000	500

Method of Use ▶

The required quantity of Fipronil 7% + Hexythiazox 2% SC needs to be diluted in water and sprayed using knapsack sprayer with spray volume @ 500 l/ha for chilli in the recommended dose of 1000ml/ha.

Time of Application ▶

Apply as soon as the insect population begins to appear in the field but before it reaches economic threshold level (ETL). Weather should be clear, calm with no strong winds.

Number of Application : 2 sprays are required at an interval of 15-20 days depending upon the pest infestation and weather
