

PUNCTUAL™

POWER HOUSE OF POTASSIUM

Composition:

Potash derived from Rhodophytes.

- Potash, a form of potassium, is crucial for plant health and plays a big role in photosynthesis, nutrient uptake, and water regulation.
- Potassium is particularly important for vegetables and fruit crops.
- It is a organic fertilizer containing potash derived from Rhodophytes.
- It enhances hormonal activity in plants and improves shape, size, shine and color of fruits.
- It is a low dose high impact formulation
- It influences the gene expression of plants and improves the inner health of plants.

Application:

- Dose - 120 g/ha or 48 g/acre with 150–200 lt water.
- Method - Foliar Spray
- Time - First spray at the beginning of the active vegetative phase and second spray is recommended after 15 days interval.

Presentation: 48 g

Potash derived from Rhodophytes

Organic Chloride free potash is safe for all sensitive crops.

Improves Water & Stress Tolerance

Help plant during drought, salinity, and heat.

Quick Nutrient Uptake

Fast acting through leaves & roots.

Sustainable & Eco friendly

Made from Seaweed, Not mined like SOP/MOP.

Enhances Yield & Crop Quality

Bigger size, Brighter colour, high sugar, longer shelf life.

Promotes Soil health

Encourages microbial growth and nutrient cycling.
