

TORNET™

BIO STIMULANT - POWDER

Mixture of Humic Acid, Amino Acid, Vitamins & Bio Chemicals (Powder)

- It contains humic acid, enzymes, vitamin C, Vitamin E, Organic Carbon in its natural state. Its use generates a special type of energy in plants, as a result of which the process of photosynthesis is accelerated and the ability of plants to make food increases.
- 100% natural plant growth enhancer in powder form
- Promotes cell division, flower initiation, and fruit setting
- Increases crop tolerance to climatic stress

Application:

- Dose - 100 g/acre
- Method - Foliar Spray
- Time - Vegetative Phase, Flowering, Fruiting

Presentation: 100 g

Sr. No.	Parameters	Content
1	Humic Acid percent by Weight, Minimum	30
2	Amino Acid (Glycine) percent by Weight, Minimum	7
3	Myoinositol percent by Weight, Minimum	2
4	Vitamin C percent by Weight, Minimum	12
5	Vitamin E percent by Weight, Minimum	0.2
6	pH (1% Aqueous Solution)	5.0-6.5
7	Total Organic Carbon percent by Weight, Minimum	25

Humic Acid

Improves Soil Structure & Water Retention.

Enhances Nutrient Availability by Chelating (binding) them making them more accessible to plants. Stimulates Root Growth & promotes overall plant health.

Amino Acid

Provides essential building blocks for plant tissues and proteins.

Can help plants cope with stress by promoting the production of protective compounds. May enhance nutrient uptake and utilization.

Vitamins

Acts as cofactor for enzymes which are crucial for various metabolic process.

Enhances Plant Resistance to stress & Disease.

Bio Chemicals

Wide Range of Substances which enhance Plant Growth & Development.

Enhances Flowering and Fruiting.
